## VALUABLES OF NFT

### 1- Limited

The shortage of NFTs adds to their appeal. NFT developers may build a limited number of non-fungible tokens to keep the value of the NFTs up.

### 2- Indivisible

The majority of NFTs are indestructible into smaller units. You will not be able to purchase a digital item until you pay the full fee.

### 3- Unique

NFT is completely safe and accurate because it has a robust information tab. This feature makes the NFT more unique and potent

## BENEFITS OF NON-FUNGIBLE TOKEN (NFT)

Decentralized exchanges have been transformed by non-fungible tokens. There are some of the advantageous benefits of this cryptocurrency;

### 1-Easily Transferable:

The transfers of NFTs are centered on their uniqueness and indivisibility. You can transfer, sell or auction your NFTs in the BEAST NFT Marketplace with one click.

### 2- Trustworthy

BEAST NFT projects are based on blockchain technologies. Consequently, you must be confident that your NFT is right, as counterfeiting a decentralized and permanent record is difficult.

## BEAST MARKETPLACE

BEAST NFT Marketplace is a vital part of our ecosystem dealing with NFTs. Non-fungible tokens (NFTs) are unique, noninterchangeable assets, minted on-chain. These tokens can be linked to anything from the digital world to physical assets. The core attributes of NFTs give them unique value and categorically separate them from other types of assets. These properties include being verifiably unique and indivisible. The transparent nature of the underlying code means that the scarcity and ownership of any given token are evident without the need for a trusted intermediary. We view the emergence of NFTs as a continuation of a paradigm shift from centralized to decentralized systems. This framework is now unlocking fresh business models for the creators of digital and physical collectables. NFT marketplaces are quickly rising to prominence in 2021 and NFTs are becoming the new asset class to care about in the crypto space. NFT marketplaces, simply put, provide a marketplace for the buying, selling, and trading of BNFT tokens.

## BEAST REFLECTION

The reflected method successfully enables coin holders to hold their coins depending on percentages completed and total tokens owned by owners. 3% is reflected back to the BNFT holders and rewards play an important part in addressing a variety of issues in order to provide investors with earnings depending on the number of tokens exchanged in the market. This method is designed to satisfy early adopters who want to sell their tokens after earning high APYs. This method attempts to relieve some of the negative sell pressure on the token that has been created by early adopters selling their tokens after harvesting insanely high APYs. Second, the reflecting mechanism encourages holders to keep their coins in order to earn greater kickbacks, which are calculated as a proportion of the total BNFT tokens owned by the owner.

## BURNING

Sometimes burns are important, and sometimes they aren't. 2% of the tax collected will be Burned that is managed by the team and elevated based on accomplishments assist to keep the community informed and rewarded.

The conditions and proportions of the burn may be marketed and monitored. BEAST NFT intends to execute a burn strategy that is both helpful and gratifying for people who participate. The burn's circumstances and quantities are publicized and monitored. The entire amount of BNFT token burnt is shown on our website readout, allowing for more transparency in determining the current circulating supply at any one moment.

## BEAST LIQUIDITY POOL

Liquidity providers receive LP tokens for providing liquidity. Users pay fees for trading on DEX, which is allocated to liquidity providers depending on the quantity of LP tokens or percent share they own in the pool. LP may suffer a temporary loss as a result of providing liquidity, and they may not get the same number of tokens back. 3% of the transaction fee will be added to the liquidity pool to protect the token from a whale attack.

The BEAST NFT protocol guarantees that token holders' assets are immediately taken and locked for liquidity. The primary goal is to keep the holder informed about the BEAST NFT performance by avoiding whale dips when they are used in a mass trade-off.

BEAST NFT's secret is Automatic LP. We have a function here that serves as a dualbeneficial implementation for holders. To begin, the contract collects tokens from both sellers and purchasers and adds them to the LP, establishing a stable price floor. Second, the penalty serves as an arbitrage-resistant mechanism, ensuring that the volume of BEAST NFT remains safe as a reward for the holders. In principle, the additional LP provides stability by adding the tax to the token's total liquidity, thus raising the token's overall LP and maintaining the token's price floor.

The price stability of the BEAST NFT token LP mimics this function, with the added advantage of a firm price floor and cushion for holders. The aim is to avoid bigger drops in the price when whales opt to sell their tokens later in the game, which prevents the price from changing as much as it would if the automated LP mechanism wasn't in place.

## BEAST CHARITY

BEAST NFT is motivated to provide back to the society so 5% total supply is to be devoted towards the charity organisations. Also more announcements will be done on our socials and website.

Our vision is to use the token for charity to provide an ongoing income for charitable projects deemed appropriate for support by our community. Your votes decide the percentage of the total donated to each charity, as we want our contributions to be a reflection of what's important to you, our community.

By using the blockchain system to donate to charities, our system provides complete transparency toward charitable donations and reflects shareholders' voices. We aim to bring significantly more money and donor engagement to all charitable foundations we work with.

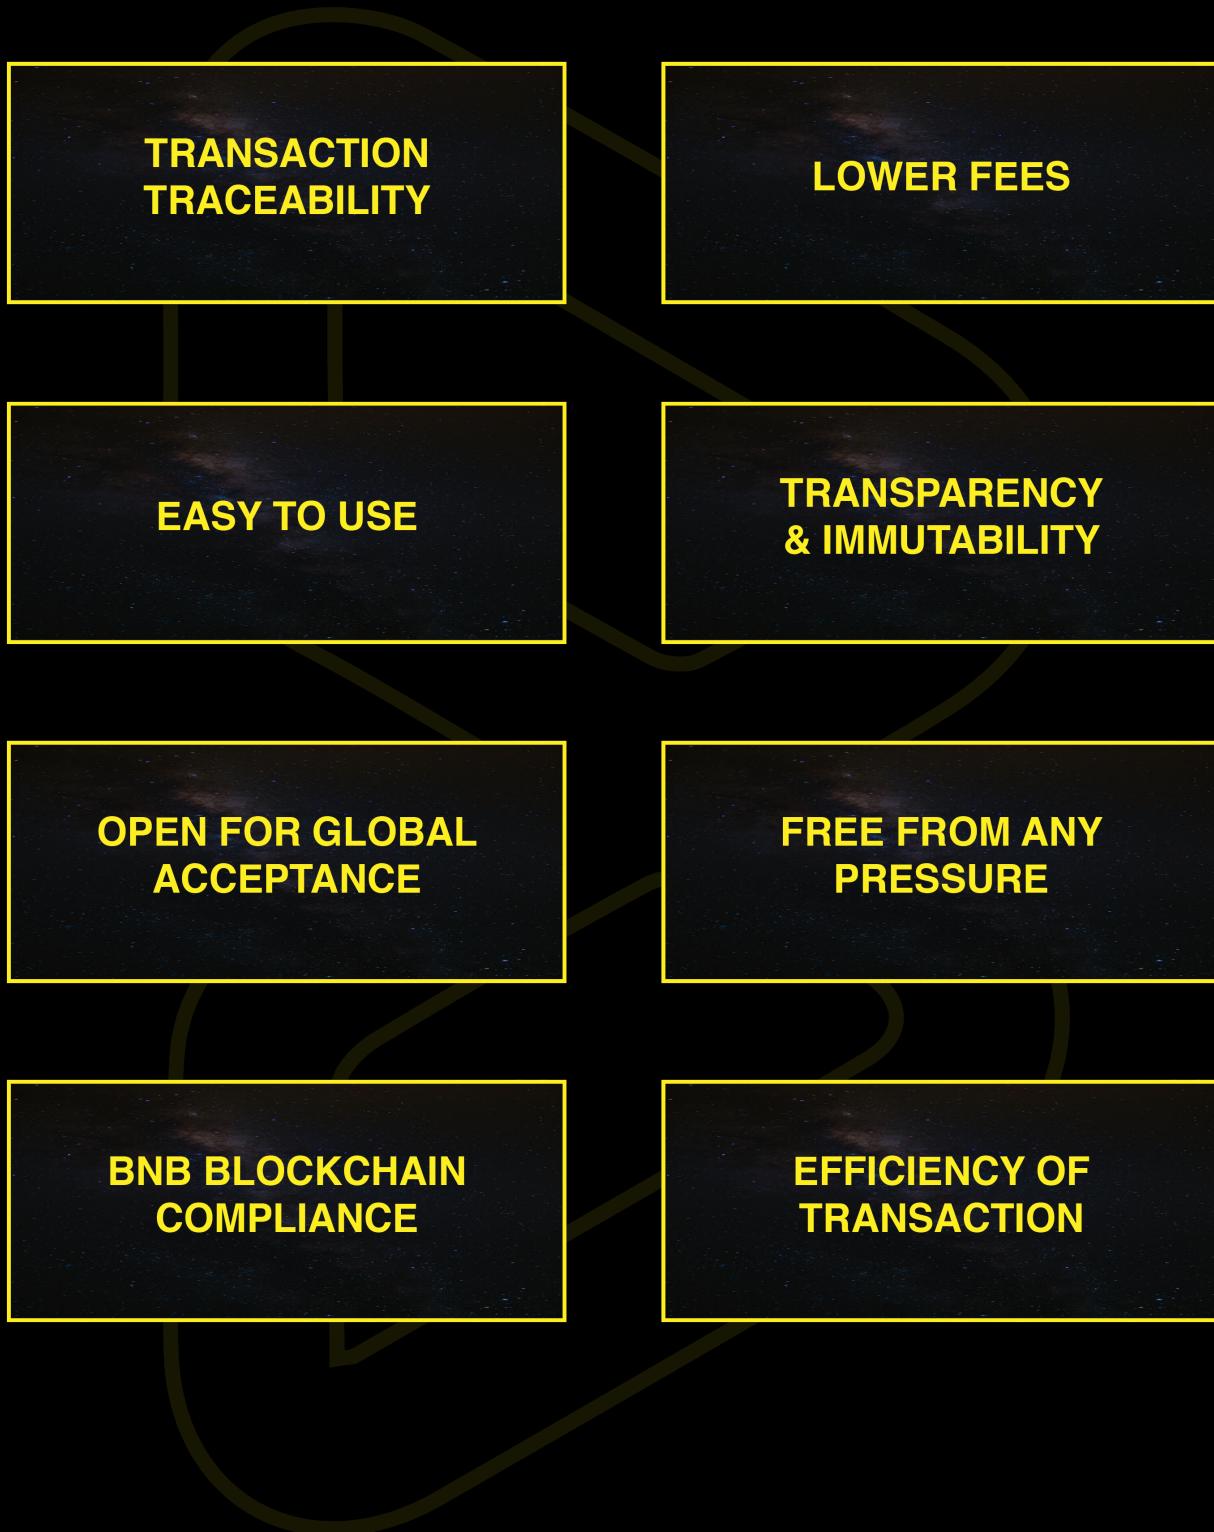

### HOW IT WORKS

- 1**  
Member Purchases BEAST NFT
- 2**  
Members vote to decide the charity organization for donation.
- 3**  
BEAST NFT is sent to Charity.
- 4**
